

Infant Focus!!

The Junior Infants have been very busy lately working in their Aistear Post Office—from creating postcards and cards for sale to making and selling stamps. They learned all about the journey of a letter and had great fun role-playing in their own post office.

They had a lovely visit from Niamh and her African hedgehog Mrs. Pickles. They got to see Mrs. Pickles eat worms and every single

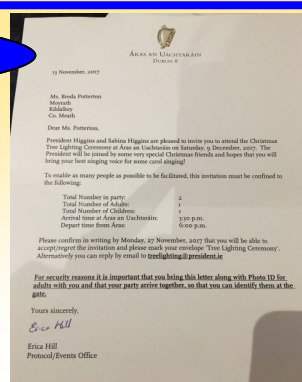

person got a chance to see or hold her. Thanks to Niamh and Pauline for bringing her in!

Well done to the Infants on their great work!

Presidential Visit

One of our students has been invited to Áras an Uachtaráin to help light the Christmas Tree lights. Ruth from first class has been invited by President Higgins to attend the Tree Lighting ceremony on Saturday, December 9th. There was great excitement when a letter arrived through her grandmother's door inviting Ruth and she is really looking forward to seeing the President and his wife Sabina!! We hope she really enjoys the day!

Mini 7s Success

Well done to the boys' Mini 7s teams who reached both finals this year in football and hurling! Both teams did exceptionally well to make the finals, only to lose in tight games. Afterwards, Ben was chosen to play in Croke Park at an All Ireland football semi-final! Both teams can feel very proud of their efforts!

KILDALKEY N.S. NEWSLETTER

November 2017

Craft Fair

This year's Craft Fair will take place on Sunday, December 3rd in the Community Centre from 12.30 until 4.00. This is an annual event which has been very successful the last few years and draws great crowds due to the vast array of crafts and goods on offer.

There will be plenty to purchase in time for Christmas with raffles and prizes throughout the day. We look forward to seeing a huge crowd there on the day!

Mini Scientist Exhibition

Kildalkey N.S. recently hosted the Mini Scientist exhibition for the third successive year. We had a record number of participants this year with nearly 29 projects and nearly 70 students taking part!

In the end, the 5th class project 'DNA - answers in our genes' were the worthy winners, beating the sixth class project 'Kitchen Chemistry' into second place. The four girls involved will now go onto the next round of the Intel Mini Scientist Exhibition, being held in Blanchardstown on December 8th. Best of luck to the girls!

Photos of the all participants and their super projects are overleaf.
